

OP27 THREE PORT SELECTOR VALVE

- 3 – Port Selector Valve Cast Iron Construction
- Simple Push – Pull Operation
- Two Position Detent Option
- Pneumatically Operated Option
- Flow Capacity up to 25 gpm
- Easily added to existing OP20 Circuit to facilitate control of additional equipment
- Cam Roller, Spring Return Option

OPTIONS

Port Sizes

½" BSPT ¾" BSPT 1" BSPT
7/8" UNF 1-1/16" UNF

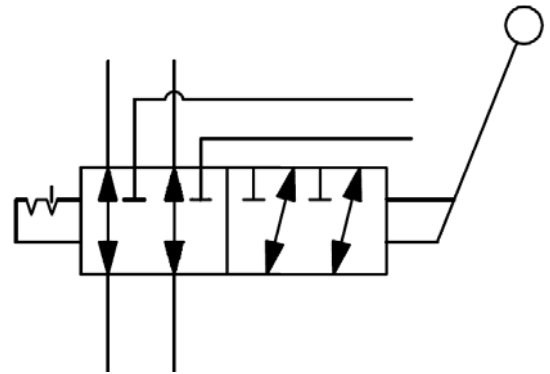

Controls

Pneumatically Actuated (B Kit)
OP20 Handle
Spring Offset
Cam Roller, Spring Return Operation

OP80 SIX PORT SELECTOR VALVE

- 6 – Port Selector Valve Cast Iron Construction
- Flow Capacity up to 25 gpm
- Rugged – Handle Operation
- Two Position Detented
- Pneumatically Operated Option
- Push Pull Option
- Spring Offset Option

OPTIONS

Port Sizes

½" BSPT ¾" BSPT 1" BSPT
7/8" UNF 1-1/16" UNF

Controls

Pneumatically Actuated (B Kit)
Spring Offset or Push Pull
